SUBPART A—LOANS UNDER SECTION 2, PUBLIC LAW 38, 81ST CONGRESS

AUTHORITY: §§ 381.1 to 381.11 issued under sec. 2 (a), Pub. Law 38, 81st Cong.

DERIVATION: §§ 381.1 to 381.11 contained in FHA Instruction 445.1.

§ 381.1 *General.* Sections 381.1 to 381.11 provide policies and procedures for making and servicing Disaster Loans under Public Law 38, 81st Congress (approved April 6, 1949). By order of the Secretary of Agriculture dated April 15, 1949 (14 F. R. 2048), the authority and responsibility for the administration of the disaster loan program was delegated to the Administrator of the Farmers Home Administration.

§ 381.2 *Purpose and scope of program.* The primary purpose of the disaster loan program is the extension of credit to farmers and stockmen, in designated disaster areas, who have suffered damage as a result of a production disaster and who are unable to obtain from commercial banks, cooperative lending agencies,

or other responsible sources the credit required to carry on their farming or livestock operations. Planning and supervisory assistance will be provided disaster loan borrowers only when such borrowers also are indebted to the Farmers Home Administration for other types of loans in connection with which planning and supervisory assistance is furnished. In connection with some disaster loans involving building repairs and replacements, other real estate improvements, and orchard and other specialized operations, technical assistance may be required in order to make sound loans and to insure the wise use of funds advanced. In such cases applicants shall utilize the services provided by Federal and State agencies, and, when feasible, the services of qualified persons or firms, in obtaining needed technical assistance. The Farmers Home Administration will assist applicants in obtaining such services from other sources, and may provide minimum technical services available within its organization to applicants whenever personnel is available.

§ 381.3 *Designation of disaster areas.* Disaster loans will be restricted to areas designated by the Secretary of Agriculture. A disaster area may consist of a State or county or any combination of States or counties in which a disaster has reduced substantially agricultural production in the area and has created a need for emergency credit not otherwise readily available in the area.

§ 381.4 *Eligibility and certifications.* Any farm owner, or farm operator, or stockman (including a partnership or corporation engaged primarily in farming or stock-raising operations) who has suffered damage as a result of a production disaster, is eligible to receive a disaster loan provided the applicant is unable to obtain the loan applied for from commercial banks, cooperative lending agencies, or other responsible sources.

(a) *Certification by applicant.* Before a disaster loan may be made the applicant must certify on Form FHA 202, "Application and Certifications for Disaster Loan," that he has suffered damage as a result of a disaster and that he is unable to obtain the loan applied for from commercial banks, cooperative lending agencies or other responsible sources.

(b) *Certification by County Committee.* Before a loan may be made the County Committee must certify on Form FHA 202 that to the best of its knowledge and belief:

(1) The applicant has suffered damage as a result of a disaster.

(2) The applicant is unable to obtain the loan applied for from commercial banks, cooperative lending agencies, or other responsible sources, and

(3) The applicant honestly will endeavor to carry out the undertakings and obligations required of him under the loan.

§ 381.5 *Loan purposes.* Disaster loans may be made for the following agricultural purposes:

(a) The purchase of feed, seed, fertilizer, materials for pest control, and for essential farm and home operating expenses.

(b) The purchase of livestock.

(c) The purchase of orchard and citrus nursery stock.

(d) The purchase of farm and home equipment, or the repair thereof.

(e) The refinancing of indebtedness secured by liens on property other than real estate where the property involved is essential to the applicant's farming operations and the present creditor will not continue to carry the indebtedness. The refinancing of unsecured debts negotiated during or after the disaster, when the need for the credit obtained was related to the disaster, and satisfactory arrangements cannot be worked out with the creditor for the applicant to repay the indebtedness out of future income. Disaster loans may not be made to refinance any other debts.

(f) The replacement or repair of buildings, fences, drainage and irrigation systems on individual farms.

(g) The leveling of land and the clearing of debris therefrom necessary as a direct result of the disaster.

(h) Other agricultural purposes not inconsistent with the limitations set forth in connection with any of the above purposes.

(i) Expenses incident to the making of such loans.

§ 381.6 *Rates and terms.* Disaster loans will bear interest from the date of the advance at the rate of 3 percent per annum on the unpaid principal. Except as provided in this section, such loans will be scheduled for repayment in at least annual installments over the minimum period of time consistent with the anticipated ability of the borrower to repay subject to the following:

(a) The repayment schedule may not extend beyond the estimated useful life of the principal items offered as security.

(b) In no case may loans secured by liens on chattel property be scheduled

for repayment over a period extending beyond 10 years from the date of the advance.

(c) Loans secured by liens on real estate in accordance with the policy contained in § 381.7 may be scheduled for repayment over a period not to exceed 20 years from the date of the advance.

(d) In cases in which adequate income cannot be anticipated during the first year after the loan is made, the first installment may be scheduled for repayment at the end of the second crop year following the date of the loan. Upon the prior approval of the Administrator, based upon unusual conditions in an individual case, a longer period of deferment may be authorized.

§ 381.7 *Security requirements.* Except as provided in this section disaster loans will be secured for the full amount of the loan by (1) a first lien on all livestock, farm machinery, and farm equipment purchased or refinanced with proceeds of the loan, (2) the best lien obtainable on crops growing or to be grown, and (3) the best lien obtainable on as much of the livestock, farm machinery, and farm equipment of security value owned by the applicant at the time the loan is made as the loan approving official determines necessary to secure reasonably the disaster loan. Assignments of proceeds from crop insurance policies or from the sale of agricultural products may be taken as additional security for any disaster loan when necessary to protect the interest of the Government.

(a) Disaster loans made primarily for real estate repairs and improvements, including improvements to orchards and groves, which require longer periods for repayment than would be prudent to encumber livestock and equipment, should be secured only by real estate liens. However, applicants must have sufficient equity in the real estate to secure adequately the disaster loans.

(b) Loan approving officials shall require in individual cases that liens on real estate be taken as additional security in situations not covered by paragraph (a) of this section when it is determined that the amount of the loan, the financial condition of the applicant, or other peculiar circumstances make such action advisable in order to secure adequately the loan to be made.

(c) When disaster loans are to be secured by liens on real estate, the applicant will be required to provide, at his expense, mortgagee's title insurance or an abstract of title.

§ 381.8 *Advances resulting in permanent real estate improvements.* Loans made primarily for the purpose of making permanent improvements to real estate will be made generally to the owner of the real estate. However, a loan for this purpose may be made to a tenant when adequate chattel security can be obtained, but in such cases the landlord will be required to compensate the tenant for the improvements to the real estate.

§ 381.9 *Loan forms and routines.* (a) *Applications.* Applications for disaster loans will be made to the County Office of the Farmers Home Adminis-

tration on Form FHA 202, "Application and Certifications for Disaster Loan".

(b) *Promissory note.* The applicant will be required to execute Form FHA 203, "Promissory Note", for the full amount of each advance.

(c) *Loan voucher.* The applicant will be required to execute Form FHA 5, "Loan Voucher", for the total amount of each advance as indicated in Form FHA 203.

(d) *Security instruments.* (1) When chattels are to be taken as security for a loan, the applicant will execute Form FHA 30 ----, "Crop and Chattel Mortgage".

(2) When real estate is to be taken as security for a loan the applicant will execute Form FHA 76 ----, "Real Estate Mortgage".

(3) Assignments of proceeds from the sale of farm, dairy, or other agricultural products, when required as additional security, will be executed by the applicant on Form FHA 80, "Assignment of the Proceeds from the Sale of Agricultural Products", or other form approved by the representative of the Office of the Solicitor.

(e) *Lien searches.* Applicants are required to obtain and pay the cost of lien searches. The cost of lien searches may be paid from the proceeds of loan checks when necessary.

§ 381.10 *Loan approval authority.* Subject to the policies and procedures contained in §§ 381.2 to 381.9, State Directors are authorized to approve disaster loans in amounts which will not cause the outstanding principal balance on such loans to exceed \$12,000 for any one borrower. State Directors may redelegate to State Field Representatives and County Supervisors authority to approve disaster loans subject to the following limitations:

(a) State Field Representatives may be authorized to approve disaster loans in amounts which will not cause the outstanding principal balance on such loans to exceed \$5,000 for any one borrower.

(b) County Supervisors may be authorized to approve disaster loans in amounts which will not cause the outstanding principal balance on such loans to exceed \$2,500 for any one borrower.

§ 381.11 *Servicing disaster loans.* Farmers Home Administration Instructions (except those relating to compromise, adjustment and cancellation of debts) containing the policies and procedures for the servicing of other operating loans under the Production and Subsistence Loan Program will be followed in the servicing of disaster loans. Officials of the Farmers Home Administration who have been vested with authority and assigned responsibility under the Production and Subsistence Loan Program are vested with the same authority and assigned the same responsibility with respect to disaster loans.

SUBPART B—LOANS UNDER ITEM "LOANS TO FARMERS, PROPERTY DAMAGE", PUBLIC LAW 71, 81ST CONGRESS

AUTHORITY: §§ 381.21 to 381.23 issued under 62 Stat. 1038, 63 Stat. 81.

DERIVATION: §§ 381.21 to 381.23 contained in Administration Letter 63, dated June 20, 1949.

§ 381.21 *General.* Under the First Deficiency Appropriation Act, 1949, funds originally appropriated for making Flood loans through June 30, 1949, will remain available until June 30, 1950, and may be used for making loans to farmers whose property was destroyed as a result of floods, storms, or other natural calamity occurring during the 1948 and 1949 calendar years.

§ 381.22 *Loan authorization.* State Directors must obtain authorization from the Administrator before loans are made from these funds in any state(s) under their jurisdiction. It is the policy to use these funds to assist farmers who have suffered property damage as a result of natural calamities, and who are in need of credit not otherwise available to continue their farming operations. These funds may be used where a small number of farmers in a locality have suffered losses and such losses are not sufficiently widespread to justify designating the area for making disaster loans pursuant to § 381.3.

§ 381.23 *Loan making and servicing policies and procedures.* The loan approval authority, policies, procedures, and forms prescribed in § 381.2 and §§ 381.4 to 381.11 will be used in making loans under §§ 381.21 and 381.22. In addition, the loans made under § 381.22 will be serviced pursuant to the authorities, policies and procedures contained in applicable published instructions governing the servicing of operating loans.

PART 178—WINE RECORDS AND REPORTS

1. Section 178.390 and 178.501 of Regulations 7 (26 CFR, Part 178) approved September 21, 1945, are amended to read as follows:

§ 178.390 *Complete records required.* All the information called for in Forms 701, 702, 702-A, 702-B, and 702-C, as

indicated by the headings of the columns and lines of the forms and the instructions printed thereon or issued in respect thereto, and as required by the regulations in this part, must be reported. All operations and transactions must be entered on the forms before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as herein authorized, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The entries must be made by the proprietor, or by his agent from personal knowledge or from data furnished by the proprietor. The entries must be made from day to day during the month (a) on all three copies of each form, or (b) on one copy of each form, from which two additional copies must be prepared at the close of the month, or (c) on a rough copy of each form, from which all three copies must be prepared at the close of the month. When a rough copy is kept, the entries shall be made thereon with indelible pencil, ink or typewriter, and the rough copy shall be filed with the copy (prepared therefrom) retained at the winery or storeroom. When the entries are made from memoranda furnished by the proprietor, such memoranda shall be filed at the winery or storeroom. Care must be used to insure the keeping of accurate and complete records. Each report should be carefully checked before being forwarded to the district supervisor. Reports prepared by persons who have no knowledge of the winery or storeroom operations and who are not furnished with the necessary data by the proprietor will not be accepted. Where forms are rendered in blank they should bear the notation "No transactions." Upon discontinuance of a bonded winery or bonded storeroom, the last reports should be marked "Final." (Secs. 3171, 3176, 3901, I. R. C.)

§ 178.501 *Preparation of the report.* Form 261 shall be prepared in accordance with the requirements of § 178.390, respecting the preparation of Forms 701, 702, 702-A, and 702-B. The entries must be made by the winemaker, or by his agent from personal knowledge or data furnished by the winemaker, before the close of the business day next succeeding the day the brandy or sweetening agents are received or used. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The report shall be subscribed and sworn to by the winemaker or his duly authorized agent. Where the form is signed by an agent, proper power of attorney authorizing the agent to execute the reports for the winemaker must be filed with the district supervisor. (Secs. 3031 (a), 3032, 3033, 3171, 3176, 3901, I. R. C.)

2. These amendments are intended for the purpose of allowing additional time for making required entries in Forms 261, 701, 702, 702-A, 702-B, and 702-C.

3. It is found that compliance with the notice and public rule-making procedure

of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

4. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

PART 182—INDUSTRIAL ALCOHOL

RECORDS AND REPORTS

1. The first paragraph of § 182.455, the first paragraph of § 182.645, the first paragraph of § 182.646, § 182.648 (a), (b), the first paragraph of § 182.787, and the first paragraph of § 182.822 of Regulations 3 (26 CFR, Part 182) approved March 6, 1942, are amended to read as follows:

§ 182.455 *General.* The proprietor of every industrial alcohol plant shall keep a monthly record on Forms 1442 and 1488 (if a bonded warehouse is not maintained on the industrial alcohol plant premises), in triplicate, as hereinafter provided. All of the information called for in each form, as indicated by the headings of columns and lines of the form and the instructions printed thereon or issued in respect thereto, and as required by the regulations in this part, will be given. Entries shall be made on the forms before the close of the business day next succeeding the day on which the transactions occur, except that summary entries will be made at the close of the month. Where the making of entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly.

§ 182.645 *Form 1443-A.* The proprietor of every bonded warehouse shall keep a monthly record, Form 1443-A, "Report of Uncoopered Alcohol," and render monthly reports thereon, in triplicate, of all uncoopered alcohol produced, received, and disposed of. Before the close of the business day next succeeding the day on which the transactions occur entries shall be made in the respective columns of the quantity of alcohol produced and deposited in the warehouse, or received in bond at the bonded warehouse, or packages filled, and the quantities withdrawn for shipment uncoopered. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda

shall be maintained for the purpose of making the entries correctly.

§ 182.646 *Form 1443-B.* The proprietor shall keep monthly record on Form 1443-B, "Report of Alcohol in Packages," in triplicate. There shall be entered daily the quantity of alcohol transferred at the warehouse to packages or received in packages from other bonded warehouses and the quantities withdrawn for shipment in packages from the warehouse. Entries of withdrawals of alcohol for tax-payment and deposit in the tax-paid storeroom (if any) should show the disposition of such alcohol to the proprietor of the warehouse for such purpose. When alcohol is withdrawn in packages directly from receiving tanks in an industrial alcohol plant on the same premises, it shall be regarded, for accounting purposes, as having been constructively warehoused and all records of production, depositing, and withdrawal of such alcohol shall be made as for alcohol actually entered into the warehouse in original packages or in storage tanks. The required entries shall be made in the form before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly.

§ 182.648 *Record at tax-paid premises, Record 52, Forms 52-A, 52-B, 52-E, and 338.* (a) *Time of making entries.* Entries shall be made on Record 52 and Form 52-E, as indicated by the headings of the various columns and in accordance with instructions printed on the forms before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, the proprietor shall maintain a separate record, such as invoices, of the removals of alcohol, showing the removal data required to be entered on Record 52 or Form 52-E, and appropriate memoranda of other transactions required to be entered on such records, for the purpose of making the entries correctly.

(b) *Separate record of serial numbers of cases.* Serial numbers of cases of alcohol disposed of need not be entered on Record 52 or Form 52-E provided the proprietor keeps in his place of business a separate record approved by the district supervisor showing such serial numbers with necessary identifying data, including the date of removal and the name and address of the consignee. Such separate record may be kept in book form (including loose-leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, or bills shall be preserved for a period of four years and in such a manner that the required information may be ascertained readily therefrom and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by revenue officers. Entries shall be made on such separate approved record before the close of the business day next succeeding the

day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The proprietor whose separate record has been approved by the district supervisor shall make a notation on Record 52 or Form 52-E in the column for reporting serial numbers as follows: "Serial numbers shown on commercial records per authority dated -----"

* * * * *

§ 182.787 *Forms 129 and 1468-A, B, C, D, E, and F.* The proprietor shall keep a monthly record on Forms 129 and 1468-A, B, C, D, E, and F, in triplicate, of all alcohol and denaturants used for denaturation, and removed (either before or after denaturation) during the month, and on hand the first and last of the month. Entries shall be made on the forms before the close of the business day next succeeding the day on which the transactions occur, except that summary entries will be made at the close of the month. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly.

* * * * *

§ 182.822 *Record, Form 1478.* Every bonded dealer holding permit to deal in specially denatured alcohol must keep Form 1478, in triplicate, covering his transactions for each month. One copy of the form shall be retained by the bonded dealer and the two remaining copies must be forwarded by the bonded dealer on or before the fifth day of the succeeding month to the district supervisor. There will be entered daily the details of all specially denatured alcohol received, and when received from a denaturing plant the number of such plant shall be entered in the column provided therefor. The amount of specially denatured alcohol lost from each lot in transit to the bonded dealer's storeroom will be entered in the proper column on the same line with the quantity reported received in such lot. The quantities reported lost in transit will not be included in the losses in the storeroom reported in the summary. Details will be entered daily of all specially denatured alcohol disposed of to manufacturers or other bonded dealers or any other disposition of such specially denatured alcohol. The number of the basic permit of the manufacturer or bonded dealer to whom specially denatured alcohol is shipped shall also be appropriately entered. Where several packages are shipped or delivered on the same day to the same person, the aggregate quantity so shipped or delivered may be stated on one line. The required entries shall be made in the form before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly.

* * * * *

2. These amendments are intended for the purpose of allowing additional time for making required entries in Forms

52-E, 129, 1442, 1443-A, 1443-B, 1468-A, B, C, D, E, and F, 1478, 1488 and Record 52.

3. It is found that compliance with the notice and public rule-making procedure of the Administrative Procedure Act (5, U. S. C. 1001 et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

4. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

PART 191—IMPORTATION OF DISTILLED SPIRITS AND WINES

RECORDS AND REPORTS

1. Sections 191.59 and 191.60 of Regulations 21 (26 CFR, Part 191), approved October 16, 1940, are amended to read as follows:

§ 191.59 *Time of making entries.* Daily entries shall be made on Record 52 and Form 52E, as indicated by the headings of the various columns, and in accordance with instructions printed thereon, before the close of the business day next succeeding the day on which the transactions occur. Where the importer defers the making of the entries to the next business day, as authorized herein, he shall keep a separate record, such as invoices, of the removals of distilled spirits showing the removal data required to be entered on Record 52 and Form 52E, and appropriate memoranda of other transactions required to be entered on such records, for the purpose of making the entries correctly. (Secs. 2857, 2858, 3171, 3176, 3254, I. R. C.)

§ 191.60 *Separate record of serial numbers of cases.* Serial numbers of cases of distilled spirits disposed of need not be entered on Record 52 or Form 52E, "Monthly Record and Report of Importer or Proprietor of Tax-Paid Premises," provided the respective proprietor keeps in his place of business a separate record, approved by the district supervisor, showing such serial numbers, with necessary identifying data, including the date of removal and the name and address of the consignee. Such separate record may be kept in book form (including loose-leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, and bills shall be preserved for a period of four years and in such a manner that the required information may be ascertained readily therefrom, and during such period, shall be available during business hours for inspection and the taking of abstracts therefrom by internal revenue officers. Entries shall be made on such separate approved record before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The importer, whose separate record has been approved by the district supervisor, shall note in the column for reporting serial numbers that, "Serial numbers shown on commercial records per authority, dated _____." (Secs. 2857, 2858, 3171, 3176, 3254, I. R. C.)

2. These amendments are intended for the purpose of allowing additional time for making required entries in Record 52 and Form 52E.

3. It is found that compliance with the notice and public rule-making procedure of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

4. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

(Secs. 2857, 2858, 3171, 3176, 3254, I. R. C.; 26 U. S. C. 2857, 2858, 3171, 3176, 3254)

* * * * *

§ 194.76 *Separate records.* * * *

(d) The separate records prescribed by paragraphs (b) and (c) of this section may be kept in book form (including loose-leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, and bills shall be preserved for a period of four years and in such manner that the required information may be readily ascertained therefrom, and, during such period, shall be available during business hours for inspection and the taking of abstracts therefrom by internal revenue officers. 3. It is found that compliance with the notice and public rule-making procedure of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

Office of International Trade

[Case No. 53]

BELIMEX CORP. ET AL.

ORDER DENYING LICENSE PRIVILEGES

In the matter of Belimex Corporation, Abraham Liberman, Bernard Liebermann, Julia Cohn, 1186 Broadway, New York, New York.

These proceedings were begun November 5, 1948, by the mailing of a charging letter to the above-named respondents, wherein the Office of International Trade charged respondents with having violated section 6 of the act of July 2, 1940 (54 Stat. 714), as amended, and the regulations promulgated thereunder.

The violations alleged consisted of respondents having applied for, obtained, and attempted to use an export license for the shipment of a large quantity of ball bearings to a named consignee in Belgium, and, upon the revocation of such license, of having applied for a second export license of similar character covering substantially the same proposed shipment, all pursuant to representations and certifications that the ultimate desti-

nation was Belgium and the ultimate use was the manufacture of new assemblages by Belgian factories, whereas respondents knew and intended that the ball bearings were to be re-exported from Belgium to Czechoslovakia.

Hearings were held on said charges, pursuant to notice duly given, before the Compliance Commissioner of the Office of International Trade in New York City on December 8 and 9, 1948. All of the respondents as well as the Office of International Trade were represented by counsel. Proof was submitted that all of the respondents had been given actual and timely notice of the proceedings and it was adjudged that all were properly before the Compliance Commissioner and subject to such order as might be entered herein. Respondent Bernard Liebermann was not personally present but the other individual respondents appeared and testified. Their testimony, as well as that of witnesses offered by the Office of International Trade, together with numerous documents offered as exhibits, were received in evidence. The hearings were full and extended. Various motions were made and argued by counsel upon which rulings were reserved and which rulings have been merged in the report of the Compliance Commissioner and in this order. The transcript of the hearings, along with the exhibits, has been reviewed by the Compliance Commissioner and he has, under date of July 29, 1949, duly filed his report in the matter.

It appears from the record and the report of the Compliance Commissioner that respondent Belimex Corporation was created under the laws of the State of New York in or about November 1947 and continuously thereafter was engaged in the conduct of an export business in New York City until approximately November 1948 when its business activities but not its legal existence were terminated; that during said period of business operations said corporation was and still is in substance and effect the enterprise of respondent Bernard Liebermann, then and now a national and a resident of Belgium, who was and still is its sole beneficial stockholder, its treasurer, and a director; that respondent Julia Cohn was, during said period, the secretary, a director, and nominal stockholder of said corporation, and was in charge of its office in New York City with authority, in the name of the corporation, to do all things necessary in the carrying on of export trade, but that she has since resigned from said corporation; and that respondent Abraham Lieberman was, during said period, the president, a director, and a stockholder of said corporation, all of which positions were nominal only and wholly without function or responsibility, but that he has since resigned from said corporation.

It further appears from the record and the report of the Compliance Commissioner that, under date of June 2, 1948, respondent Belimex Corporation filed with the Office of International Trade an application for a license to export \$1,000,000 worth of ball bearings to Centralimpex, S. A., in Belgium; that it was stated and represented in said application that the country of ultimate destina-

tion was Belgium and that the end use of such ball bearings was the making of new assemblages by Belgian factories; that said application was validated as export license No. 1278524 by the Office of International Trade under date of June 24, 1948 in the terms, and incorporating the representations and conditions, of the application; that respondent Belimex Corporation on or about September 3, 1948, pursuant to such license, filed with the U. S. Collector of Customs at New York City four export declarations covering the proposed shipment of approximately \$75,000 worth of ball bearings by said respondent to said Centralimpex, S. A., in Belgium and attempted to accomplish the exportation thereof in accordance with such declarations but were prevented from doing so by reason of the revocation of said export license by the Office of International Trade; and that, under date of September 7, 1948, respondent Belimex Corporation filed with the Office of International Trade a further application for a license to export \$225,175 worth of ball bearings to said Centralimpex, S. A., such application containing the same representations as to ultimate destination and end use as the previous application described above and being filed for the purpose of securing an export license in partial substitution for, and to effect in part the same exportation as previously authorized by, the revoked license No. 1278524.

It further appears from the record and the report of the Compliance Commissioner that the representations made in the above-described applications were in fact false in that said ball bearings were not to be used in Belgium but were being purchased by said Centralimpex, S. A., for resale and transshipment to Czechoslovakia; that the attempt to ship ostensibly to Belgium was in reality an attempt to make an unlicensed shipment to Czechoslovakia contrary to the terms and conditions of the license; that respondent Bernard Liebermann was the principal stockholder of Centralimpex, S. A., and was thus the principal beneficiary of such proposed sale by Centralimpex, S. A., to Czechoslovakia; that said respondent Bernard Liebermann made or caused to be made the representations and the attempted shipment described above with the knowledge and intention that transshipment to Czechoslovakia was to be effected and accordingly that such representations were false and that such attempted shipment was contrary to the terms and conditions of the license; that respondent Julia Cohn, although not shown to have had actual knowledge of such proposed transshipment as a fact, nevertheless was informed prior to the attempted exportation that the source of payment was to be Czechoslovakian and that shipment was probably destined for Czechoslovakia, and thereafter attempted to make such exportation and filed the second export license application without making disclosure to the Office of International Trade of such information as had come to her and without making any such investigation of ultimate use and destination as was reasonably calculated to reveal the true facts; that by reason of such indifference and negligence said

respondent Julia Cohn is chargeable with knowledge of the true facts and thus with knowing participation in the attempted unlicensed shipment to Czechoslovakia contrary to the terms and conditions of the license and in the making of false representations to the Office of International Trade in the second license application; that said knowledge and intention on the part of respondents Bernard Liebermann and Julia Cohn is to be equally ascribed to respondent Belimex Corporation; but that respondent Abraham Liberman, having had no functions, interest, or responsibilities in said corporation and having had no knowledge of or part in said transaction in ball bearings, is not to be held responsible therefor.

It further appears from the record and the report of the Compliance Commissioner that respondents Belimex Corporation, Bernard Liebermann and Julia Cohn thereby violated section 6 of the act of July 2, 1940 (54 Stat. 714), as amended, and the regulations promulgated thereunder; that such violations, involving the attempted exportation of a strategic commodity to an unauthorized destination known to have national security significance, have demonstrated the lack of trustworthiness on the part of said last-mentioned respondents in the exercise of export license privileges; and that extended suspensions of such privileges are therefore justified.

The Compliance Commissioner has accordingly recommended that all outstanding export licenses held by or issued in the names of said respondents Belimex Corporation, Bernard Liebermann and Julia Cohn be revoked and ordered to be forthwith returned to the Office of International Trade for cancellation; that said respondents be denied the privilege of obtaining or using or participating directly or indirectly in the obtaining or using of export licenses, including general as well as validated licenses, for the duration of export control, but subject to the right of respondent Julia Cohn to apply to the Office of International Trade, after one year from the date of such order as may be entered herein, for reinstatement of her license privileges upon a showing that it is her desire and intention to return to export trade and upon full disclosure of the nature and scope of such proposed undertaking; that such denial of export license privileges extend not only to said named respondents but also to any trade name, firm, corporation or other business association with which they or any of them may be now or hereafter related by ownership, control or otherwise in the conduct of export trade; and that the charges insofar as they relate to respondent Abraham Liberman be dismissed.

The findings and recommendations of the Compliance Commissioner have been carefully considered together with the record in this matter and it appears that such findings are supported by the record and that such recommendations are fair and reasonable and should be adopted. Now, therefore, it is ordered, as follows:

(1) Respondents Belimex Corporation, Bernard Liebermann and Julia Cohn are hereby denied the privilege of obtaining or using or participating directly or in-

directly in the obtaining or using of export licenses, including general as well as validated licenses, for such time and to such extent as licenses for exports are required by law: *Provided, however*, That respondent Julia Cohn may, after the expiration of one year from the date of this order, apply to the Office of International Trade for reinstatement of license privileges as to her upon a showing that it is her desire and intention to return to export trade and upon full disclosure of the nature and scope of such proposed undertaking.

(2) Such denial of export license privileges shall extend not only to said respondents specified above in paragraph (1) but also to any trade name, firm, corporation or other business association with which they or any of them may be now or hereafter related by ownership, control or otherwise in the conduct of export trade.

(3) All outstanding export licenses held by or issued in the name of any of said respondents specified above in paragraph (1) are hereby revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(4) The charges brought against respondent Abraham Liberman are hereby dismissed.
